

SURNAME, Given Name

TARGET FUNCTION | CORE EXPERTISE | INDUSTRY FOCUS

Tel: XXXXXXXXXX | name@example.com
linkedin.com/in/username | github.com/username

Write a concise two- or three-sentence profile covering scientific background, relevant platforms, evidence of delivery, and the target role. Prioritise keywords that genuinely match the vacancy.

EDUCATION

University Name 20XX–Present
PhD Candidate in Subject, Department or Institute

- Research focus: define the core question, application area, or technology platform in one line.
- Thesis submission expected Month 20XX; viva expected Month 20XX.

University Name 20XX–20XX
MSc in Subject; final classification

- Relevant training: list three to five modules aligned with the target role.
- State a dissertation distinction, award, or other evidence of academic performance separately.

University Name 20XX–20XX
BEng/BSc in Subject; GPA X.X/X.X

- Relevant training: concise selection of technical, analytical, or regulatory modules.
- Include scholarships, thesis awards, or competitions only when they strengthen the application.

CORE RESEARCH EXPERIENCE

Research Project Title 20XX–Present
Doctoral Researcher, University or Research Institute

- Investigate a defined question, process, or mechanism using appropriate models and controls.
- Design experiments across variables, conditions, time points, and repeated measurements; own data quality and interpretation.
- Apply method A, method B, and method C; clarify the work performed independently and any cross-functional contribution.
- Quantify the strongest outcome using effect size, throughput, reproducibility, accuracy, or a decision enabled by the work.

Research Project Title 20XX.XX–20XX.XX
Research Assistant, Organisation Name

- Validated candidate targets or optimised a workflow using technique A, technique B, and technique C.
- Built dose/time-course studies and translated results into a repeatable experimental plan and stakeholder update.

Dissertation Project Title 20XX.XX–20XX.XX
MSc Research Project, University × Partner Institute Project grade/award

- Established or applied a quantitative assay, imaging workflow, or analysis pipeline across defined samples and metrics.
- Report the most persuasive result and explain its scientific or translational relevance.

ADDITIONAL RESEARCH & INDUSTRY EXPERIENCE

Research or Innovation Project

20XX.XX–20XX.XX

Project Lead/Team Member, Organisation Name

- Led or contributed within a team of X to deliver a defined scientific, process, or platform objective.
- Quantify an assay established, workflow improved, candidate screened, or project milestone delivered.

Applied, Process, or Quality Project

20XX.XX–20XX.XX

Research Project, University × Company

Project award

- Summarise option screening, method development, process optimisation, or quality activities.
- Name the key instruments and acceptance criteria, followed by the decision or recommendation produced.

Official Company Name

20XX.XX–20XX.XX

Quality Control / R&D Intern

- Supported sample testing, stability studies, documentation, or quality-system activities under supervision.
- Specify the method, sample type, and personal responsibility; avoid generic claims of familiarity.

Official Company Name

20XX.XX–20XX.XX

Research Laboratory Assistant / Intern

- Supported experimental execution, process optimisation, or analytical testing of development samples.
- Where discloseable, quantify throughput, efficiency, consistency, or turnaround improvement.

TECHNICAL SKILLS

Core Methods: Method A; method B; method C; method D; method E.**Technical Platforms:** Platform A; platform B; platform C; instrumentation or systems.**Data Analysis:** Data processing; visualisation; statistics; programming language.**Software & Tools:** Professional software; project tools; quality systems; compliance fundamentals.

LEADERSHIP & ORGANISATIONAL EXPERIENCE

Student Society or Professional Association

20XX.XX–20XX.XX

Executive Committee Member / Department Lead

- Led an X-person team, coordinating priorities, delegation, and delivery across internal and external stakeholders.
- Delivered X events for X attendees while managing budget, communications, suppliers, or operational risk.

Society or Volunteer Organisation

20XX.XX–20XX.XX

President / Project Lead

- Describe the organisation's scale and the operating process or governance improvement you introduced.
- Highlight transferable leadership, negotiation, communication, and problem-solving evidence.

LANGUAGES & ADDITIONAL INFORMATION

Languages: Language A: native | Language B: professional proficiency (test score if useful).**Additional:** Selected awards, certifications, professional memberships, or role-relevant information.
